## Anti Cellulite and Body Contouring

ENDERMOLOGIE was developed in France by Louis-Paul Guitay (LPG) in 1984. In the original form it was used to rehabilitate scars, burns and connective tissue disorders and a surprising side-effect was discovered – significant inch loss from the body and the reduction of cellulite.

ENDERMOLOGIE was the first cellulite treatment in the world to be approved by the FDA (American Food & Drug Administration) and scientific studies continue to show outstanding results. The treatment works by breaking down cellulite and removing toxins and fluid retention. Collagen and elastin production is boosted generating a healthier rejuvenated skin tone. With over 95,000 treatments performed worldwide everyday.

ENDERMOLOGIE is the choice of treatment for those serious about fighting cellulite. It is now available to you right here in Melbourne.
