STIMULATES YOUR BEAUTY

The world leader in cellular stimulation
with Cellu M6® has created for you

Endermolift™

Firms contours

Instantly clarifies complexion

Replenishes wrinkles and fine lines from within

THE SKIN IS A LIVING ORGAN WHOSE CELLULAR ACTIVITY MAINTAINS ITS FIRMNESS, SOFTNESS AND HEALTHY GLOW. AFTER THE AGE OF 25, YOUTH CELLS (FIBROBLASTS) REDUCE THEIR COLLAGEN AND ELASTIN PRODUCTION.

THE SKIN LOSES ITS SUBSTANCE AND THE SIGNS OF AGING APPEAR, INCLUDING WRINKLES, SAGGING CONTOURS AND A DULL COMPLEXION.

Endermolift™

This exclusive anti-aging technique redefines skin in depth to erase the signs of aging.

LPG Lifts deliver micro-beats to the skin's surface to stimulate youth cells in-depth, restoring their natural production of collagen and elastin.

Your Endermolift™ Program

After a personalized evaluation of your face and beauty goals, your specialist will propose a custom treatment program involving one to two sessions per week for two months. This patented, 100% natural anti-aging technique is absolutely pain-free.

Your specialist will offer you a personal Endermolift™ lift tailored to your skin type.
An Endermolift™ lift contains:
- a set of 20 lifts
- regular or seasonal
- A Redness
- and LPG the Collagen-Firming
- Green sample
